

DESCRIPTION

The SIII 6-24x50 LR Zero-stop MOA-2 provides the shooter with Long Range performance for target and field applications. This Zero-Stop model features an external Zero-Stop for the fastest zero settings in the industry today. With a total travel of 100 MOA the shooter has enough travel for targets well beyond 1000 meters. Sightron's patented ExacTrack technology provides precise windage and elevation adjustments while maintaining a positive point of contact with the erector tube. From zero to the most extreme adjustments, you will never experience drift again.

The 30mm one-piece tube design features Sightron's Zact-7 Revcoat® multi-coated optical grade glass lenses which are precisely aligned to ensure maximum light transmission, color accuracy, and clarity.

The large tactical knobs provide tactile and audible clicks with 1/4 MOA adjustments. The knobs are resettable to zero and are designed for extreme weather conditions. Parallax adjustment is controlled via the side focus knob and will focus from 40 yards to infinity.

The SIIISS624x50LRZSMOA features a MOA-2 second focal plane reticle.

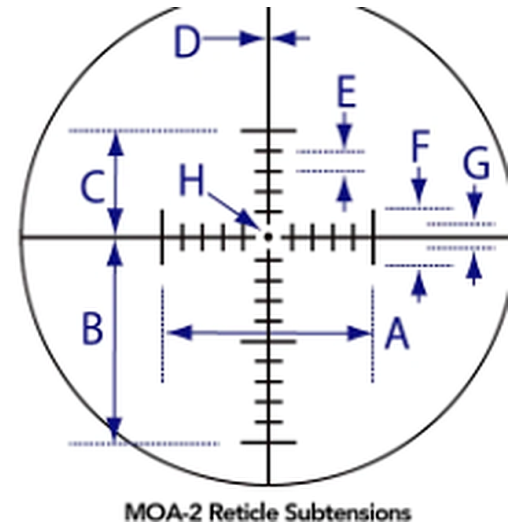

FEATURES

ExacTrack W&E; System	Never experience drift with Sightron's patented windage and elevation adjustment technology. It provides proper alignment between the adjustments and the erector tube by maintaining the same constant and accurate point of pressure at zero or extreme adjustments.
Exclusive Optical Design	Using the right materials for the right application, Sightron engineers build optical formulas around the best optical glass to reduce chromatic aberrations, improve color accuracy, deliver excellent light transmission, and best-in-class resolution and sharpness.
Zact-7 Revcoat®	Exclusive Zact-7 Revcoat® multi-coating process employs revolutionary lens coating technology on both surfaces of the lenses for maximum anti-reflection performance and the high light transmission.
Second Focal Plane Reticle	The reticle size remains constant at any zoom range.
Reticle Material	Etched Glass for a superior viewing experience
Shockproof	Built to withstand high caliber recoil and accidental impact
Waterproof	Rated at IPX7 waterproof standards
Fogproof	Nitrogen gas charged for a lifetime of fog free use
Tube Construction	Milled from a single piece of lightweight, industrial grade aluminum

MOA-2 RETICLE DETAILS

The MOA-2 is Sightron's most popular reticle due to its versatility and can be used for short and long range target shooting. It features a fine crosshair reticle with a floating dot in the open center. Hash marks extend into all 4 quadrants of the reticle in 2 MOA increments.

MOA-2 measured in MOA	A	B	C	D	E	F	G	H
6x at 100 yards	8 0	8 0	4 0	3 0	8 1	6 1	8 1	
24x at 100 yards	2 0	2 0	1 0	0 7 5	2 4	2 4	2 5	

SPECIFICATIONS

Magnification	6-24x
Objective Lens Diameter	50mm
Eye Relief	3.6 - 3.8 inches
Field of View	16.1 - 3.9 ft @100 yds
Tube Size	30mm
Turret Style	Tactical (Resettable)
Zero Stop	Yes
Click Value	1/4 MOA
Minutes Per Revolution	15 MOA
Max Elevation Adjustment	100 MOA
Max Windage Adjustment	100 MOA
Parallax Setting	40 yds to Infinity
Focus Type	Side Focus
Reticle Type	MOA-2 @24x
Focal Plane	Second
Illumination	No
Finish	Matte Black
Waterproof	Yes - IPX 7 rated
Anti-Reflection Tech	Exclusive Zact-7 Revcoat® Multi-coating
Fog Proof	Yes
Length	14.9 inches
Weight	24.3 oz
Sunshade	Included
Item Number	25168
UPC Code	793139-251688
Model Name	SIIISS624X50LRZSMOA
