

DESCRIPTION

The SIII 10-50X60 FT Zero Stop Mil-Hash is designed for competitive airgun shooters. It provides precision parallax adjustments between 10 and 300 yards for precise ranging. With a total travel of 14.5 MRAD the shooter has enough travel for targets in any conditions. Sightron's patented ExactTrack technology provides precise windage and elevation adjustments while maintaining a positive point of contact with the erector tube. From zero to the most extreme adjustments, you will never experience drift again.

The 30mm one-piece tube design features Sightron's Zact-7 Revcoat® multi-coated optical grade glass lenses which are precisely aligned to ensure maximum light transmission, color accuracy, and clarity.

The Zero Stop tactical turrets provide tactile and audible clicks with .05 MRAD adjustments. Parallax adjustment is controlled via the side focus knob and will focus from 10 to 300 yards.

The SIIISS1050X60FTZSIRMH features the illuminated Mil-Hash second focal plane reticle.

Included in the box: Scope; Large 5-inch side focus wheel; 3-inch rubber eye guard.

FEATURES

ExactTrack W&E; System	Never experience drift with Sightron's patented windage and elevation adjustment technology. It provides proper alignment between the adjustments and the erector tube by maintaining the same constant and accurate point of pressure at zero or extreme adjustments.
Exclusive Optical Design	Using the right materials for the right application, Sightron engineers build optical formulas around the best optical glass to reduce chromatic aberrations, improve color accuracy, deliver excellent light transmission, and best-in-class resolution and sharpness.
Zact-7 Revcoat®	Exclusive Zact-7 Revcoat® multi-coating process employs revolutionary lens coating technology on both surfaces of the lenses for maximum anti-reflection performance and the high light transmission.
Second Focal Plane Reticle	The reticle size remains constant at any zoom range.
Reticle Material	Etched Glass for a superior viewing experience
Shockproof	Built to withstand high caliber recoil and accidental impact
Waterproof	Rated at IPX7 waterproof standards
Fogproof	Nitrogen gas charged for a lifetime of fog free use
Tube Construction	Milled from a single piece of lightweight, industrial grade aluminum

SPECIFICATIONS

Magnification	10-50x
Objective Lens Diameter	60mm
Eye Relief	3.6 - 4.3 inches
Field of View	9.6 - 2.2 ft @100 yds
Tube Size	30mm
Turret Style	Tactical (Resettable)
Zero Stop	Yes
Click Value	.05 MRAD @100 meters
Minutes Per Revolution	2.5 MRAD
Max Elevation Adjustment	14.5 MRAD @100 meters
Max Windage Adjustment	14.5 MRAD @100 meters
Parallax Setting	10 yds to 300 yds
Focus Type	Side Focus
Reticle Type	Mil-Hash IR
Focal Plane	Second
Illumination	Yes
Finish	Matte Black
Waterproof	Yes - IPX 7 rated
Anti-Reflection Tech	Exclusive Zact-7 Revcoat® Multi-coating
Fog Proof	Yes
Length	16.9 inches
Weight	30.8 oz
Sunshade	Not Included
5-inch Focus Wheel	Included
3-inch Rubber Eye Guard	Included
Item Number	25179
UPC Code	793139-251794
Model Name	SIIISS1050X60FTZSIRMH

Illuminated Mil-Hash RETICLE DETAILS

The Mil-Hash reticle is designed for those who prefer MILS over MOA. The ranging type reticle features a fine crosshair with an illuminated floating dot in the open center. Hash marks extend into all 4 quadrants of the reticle in .5 MIL increments.

Mil-Hash measured in MILS	A	B	C	D	E	F	G	H	I	J
10x at 100 meters	2 4	1 2	2 4	0 2	1 2	1 2	1 6	1 7	1 6	3
24x at 100 meters	1 0	5 1	0 2	5 5	0 5	2 5	0 7	2 3	0 2	5 9
